Introduction

4

New Loops presents Diva Expansion - 76 powerful and inspiring Diva presets showcasing the best of classic analogue and modern digital sounds.

Each patch in this Diva sound bank has been carefully created to be used in music, you won't find any wacky FX or strange noises here, you will find a wide choice of musical sounds which make a great starting point for your own songs.

With 76 new presets, Diva Expansion covers a range of classic and vintage sounds including huge cinematic Pads and Drones, warm analogue Basses, Oldskool Chords and FM Bells, big brassy Synths, beautiful filtered Keys and Arpeggios, and loads more characterful sounds.

Diva Expansion isn't all analogue gooeyness though, you'll also find sounds that are perfect for EDM and modern Electronic music including massive digital Leads, tropical Plucks, wonky Squares, metallic Basses and Wobbles, huge supersaw Stacks, aggressive Stabs, plus plenty of new and unique sounds!

As with all New Loops sample packs, once purchased Diva Expansion is 100% royalty free to use in your songs and audio productions. We are sure you will find this sound library a great resource for years to come.

Installation

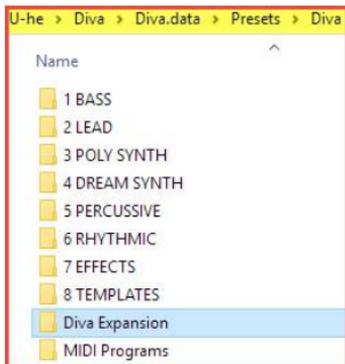

Installing this sound bank is easy. Simply download the Zip file and unpack. You can then move the entire folder to your preferred place on your hard disk.

Add Presets to Diva

Place the sound bank folder into the ***Diva Presets*** folder and use Diva's browser to load the presets.

For more detailed help with loading presets refer to the Diva User Guide.

Please keep a backup copy of your sound bank.
