To clarify the following apply to any Royalty Free sample or vocal out there.

In simple terms! ☺

You can use royalty free samples or vocals to create your own music but you cannot claim rights from other producers that have used the same samples.

WHY?

Productions and Tracks that have used Royalty Free samples, free or paid (midi or wav) and vocals can be released through any online music shop or platform. However, you cannot register the royalty free vocal or melody you use as your own composition since they are not. That is to avoid copyright strikes towards Roundel Sounds or other producers that have used the same samples or vocals. In case your label or your publisher sends such a strike because of how song ID software works on platforms such as YouTube or SoundCloud, once the other party disputes it, you are obligated to drop claims as soon as possible as it is not lawful to start with.

****Roundel Sounds vocals and melodic samples cannot be used for platforms that sell Royalty Free song libraries services.***
