

Club Kicks by Wave Alchemy serves up 75 thunderous kick drum samples from Jomox's famous analogue kick drum module. As with [Electrik Drums](#) and [Airbase Drums](#) all sounds have been superbly recorded through an API 512c pre-amp, only this time **ALL** samples have been enhanced with generous amounts of outboard compression and EQ!

To further this, all 75 samples have then been passed through a Sherman Filterbank distortion unit to add a grittier and more harmonically rich tone! For your convenience we have included both the distorted and pre-distorted kick drum samples giving

you a whooping 150 floor shaking analogue drum hits.

The best part of all is this sample pack is 100% free! All you have to do is go to <http://www.wavealchemy.co.uk> and [login](#) to gain access to the download link!

Club Kicks marks the first in an ongoing line of free sample packs from award-winning sample developer Wave Alchemy. Be sure to regularly check our [free samples](#) page for more exiting free giveaways!

What's included in the sample pack?

- 150 24-bit 100% royalty free Club Kick sampled from the Jomox MBase II Drum Machine.
- 75 kick drums amply processed through high-end compressors and EQs
- 75 kick drums harmonically enhanced with the Sherman Filterbank filter/distortion unit

At Wave Alchemy we don't compromise on quality and use only high end equipment ensuring everything is recorded in 24bit through high quality A/D converters.

Kit List:

- Jomox MBase 11
- API 512c pre-amp
- Empirical Labs Distressor EL8
- SSL E Series EQ
- SSL E Series Compressor
- SPL Transient Designer

Like the sound of these samples?

The samples in this pack demonstrate a small fraction of what the original MBASE II instrument can do. For more info please visit <http://www.jomox.com>
